

# June 2014 Blue Group

## What have the Big Kids been up to?

Here is our last newsletter for the year - and what a fantastic year it has been!  
Everyone has worked so hard to grow into Big Kids!

As you know, I will be leaving Vietnam at the end of the year and will leave the Blue Group with Ms Katy. We all learned a lot this year, and we would like to thank the children for all their hard work, and the parents, for their kindness and support throughout the year, and contributing to a great atmosphere in the group with the numerous play-dates and birthday parties!

Ms Viviane, Ms Hanh and Ms Jacqueline

## Turning 4

More of us turned 4 during this term. Khang celebrated with a pirate cake, Selma with ice-cream, and Dong Hwan with a Mickey Mouse cake. We are getting so big now!

## Fantasy job

Talking about our future is fun, dressing-up as it is even better!  
A couple of doctors, a couple of princesses, and a lot of Super-heroes!  
Interesting careers!

## Easter fun!

For Easter, we joined all the Kiddies for a great morning of fun! Easterly tasks before an awesome egg hunt: it was a very happy celebration!

# New Friends in the Blue Group

Liam

Thien Bao

Kayleigh

Marja

Yanika

## Moving on...

While some of our friends went to visit their new schools, our friends who will continue in the Blue Group will get to know in the weeks to come their friends coming from the Kiddies and their new teacher, Ms Katy. We are already looking forward to next year!

## Playing with my friends

Playing with our friends is the most natural thing for children our age. Of course, this is how we build up our social skills and our first friendships. But it's also a very important way to build all kinds of skills and knowledge, by learning from each other. This is why it's very important for us to have opportunities to play with each other at school and outside!

## Creative play

Every day, children are offered a creative activity during free-play, and a couple of times a week, will provide another kind of creative experience during our main activity. On top of encouraging children to explore their creative side and their imagination, creative activities help them develop their fine motor-skills and allow them to observe the world around them to slowly start to represent it.
